

MONEY TRANSFERS · FROM AUSTRALIA

See what your transfer really costs.

A “\$0 fee” often hides a worse exchange rate. We add the fee and the rate markup into one honest number, so you know what your family actually receives.

EXAMPLE · AUD 1,000 TO INDIA

Advertises \$0 fee

Advertised fee \$0.00

Mid-market rate 55.00 INR

Rate you actually get 54.20 INR

Hidden in the rate -800.00 INR

Real cost of this transfer 800.00 INR (1.45%)

THE “\$0 FEE” CATCH

Free to send isn’t free to receive.

01

Fee and markup in one total

Every provider’s cost as a single number you can compare.

02

Evidence behind every price

A saved snapshot of the pricing page each number came from.

03

Live prices on every search

Fetches when you compare, with the time shown on every result.

COMPLIANCE & DISCLOSURES

Straight answers about how FeePrint works

General information only

FeePrint doesn’t consider your objectives, financial situation or needs, and isn’t financial advice. Read the provider’s terms before you send.

Independent rankings

Results are ordered by what your recipient gets. Providers can’t pay for a better position. [Disclose any referral or commercial arrangements here.]

How accurate the prices are

Prices come from providers’ public pages and are fetched live when you search. If a live price isn’t available, we show the last saved one with a warning. The provider sets the final amount. Data over 24 hours old is hidden.

Check before you send

Make sure the provider is registered with AUSTRAC as a remittance provider, and confirm the amount your recipient will get on its own quote.
